JUSTICE CARTER TO FIX COAL PRICE LOS ANGELES, Aug. 10.— Search by federal and county

Coal Director-Operators Agree to Accept

Mine Workers and Operators To Advise Director

OPERATORS PRAISES

CHICAGO, Aug. 10-The price of coal to Illinois consumers will be fixed for the next year by Chief Justice O. N. Carter, of the supreme court of Illinois who tonight was named by Governor Lowden to be director of coal and whose services the Illinois Coal Operators agreed to with the governor.

Chief Justice Carter will act for the governor on all questions arising in the production, price, distribution and transportation of coal to be consumed by the people of Illinois during the coal year which are demanding nine and ten hours ends March 31, 1918.

He will be aided and advised by a permanent committee to be composed of three members of the state council of defense, three representatives of the Illinois Coal Operators association and three members of the mine workers.

Terms of Agreement The agreement signed by the governor and the coal operators defined the three committees who are to act as aides and advisers and said:

"The operators agree to reserve the amount of coal necessary for consumption by the people of the state of Illinois and to sell same at prices to be determined as hereinafter provided.

'The director of coal shall have termine the price of coal at the to consumers in the state of IIIInois; such price, however, in no case to exceed the maximum price as fixed from time to time by the federal government such director of coal, before determining any price of coal shall in respect of such price give to all the committee an opportunity to be heard.

'The director of coal and the up the subject of distribution and retail prices with the coal retailers of the state to the end that the retailers join with the operators in the powers herein conferred upon them. the director of coal as far as retail prices are concerned

To Take Up Matter With Roads "The director of coal and the committees are immediately to take to the end that the railroads join twelve were write persons. The diswith the committees so far as the question of transporation may be concerned. It is the substantial essence and spirit of the arrangement provided for by this instrument that! all action of every kind taken or to be taken under this arrangement shall be had and taken with the utmost possible dispatch.

The agreement was signed Frank O. Lowden, F. C. Honnold, Thomas T. Brewster, D. W. Buchanan, J. E. Rutledge, E. T. Bend, H. C. Adams, C I. Pierce, Ralph Crews and R. C Butler.

Governor Lowden said he had not accepting the place but declared he believed he would serve.

The governor praised the coal men they met him in an effort to reach

the agreement.

Committee of Defense Council, FIFTEEN ILLINOIS COAL MINES SHUT DOWN

Between Five and Six Thousand Miners Out of Work

Mine Drivers Strike for Higher Wages-Operator States Strike is Sporadic and is the Result of the Nationwide Spirit of Unrest.

Springfield, Ill., Aug. 10.-As many as fifteen coal mines between Springfield and St. Louis, Mo., have been forced to shut down throwing accept after a four hours conference out of work between 5,000 and 6,000 miners as the result of the strike for higher wages, of mine drivers, Francis McLaughlin, secretary of the Illinois Coal Operators'

association stated tonight. The men, Mr. McLaughlin said, pay for eight hours work at their scale of 45 cents an hour. They new receive \$3.60 a day.

"The walkouts have not the approval of the miners' organization and in many instances pit committees have not been consulted at all,' he states. "The strike is sporadic and is the result of the nationwide spirit of unrest.

Mr. McLaughlin denied that operators had paid premiums to drivers in some mines thus causing dissatisfaction where the bonuses were not given. "Any operator in our asociation

found guilty of having paid a premium would be expelled immediately," he declared. "Such action would be in violation with our wage agreement with the miners. Harry Fischwick, vice-president

CONTROL OF FOOD

tory Bills Signed By 'Wilson

Appointment Made at White House Soon After Signing of Bills

HAS ABSOLUTE CONTROL

WASHINGTON, Aug. 10 .- The American government today assumed control of the country's food supply with the signing by President Wilson of the Administration Food

Survey and Regulatory bills. Formal announcement of Herbert Hoover's appointment as food administrator was made at the white house soon after the measures were approved and tonight Mr. Hoover set forth the aims of the food administration in a statement declaring its purpose will be to stabilize conditions.

The two measures signed today give to the government sweeping war time powers. The regulatory bill is designed to put food distribution under direct government supervision and extends an even more drastic control over coal and other fuels, including the power to fix prices and authorizing government operation of mines. The survey bill is intended to encourage production and gives the government authority to keep up a continuous census of the amount of foodstuffs in the United States. It will be adminisered by the department of agricul-

Departments Ready for Work Both the food administration and he agriculture department have been ready long since before the bills were passed to go ahead with the work. The food administration has assembled a staff and already is enlisting the country's' women in a household saving campaign. Meanwhile the federal trade commission, authorized some time ago to conduct an investigation into food prices with which it will turn over to the two agencies and to the department of justice. The first move of the administration will be to bring about changes in the system of distributing wheat and in the manufacture

It will take up next the production of meat and dairy foods. 'The

EMERGENCY FLEET LEGAL STAFF RESIGNS

Quit in a Body With Sympathy to Major General Goethals-Staff Consisted of Country's Best At-

Washington Aug. 10.-The entire legal staff of the emergency fleet corporation has quit in a body, because of sympathy it is said, with Major General Goethals, whose resignation as general manager of the corporation was recently accepted by President Wilson. On the staff are some of the country's best known lawyers. They are George Rublee, former member of the federal trade commission, Joseph P. Cotton, George H. Savage, and Charles P. Rowland, of New York and Edward B. Burling of Chicago. All except Mr. Savage were serving

without pay The attorneys resigned several days ago, but their action became known only today. It was learned the lawyers felt that Rear-Admiral Capps, now general manager, should be left free to choose his own asso-

ciates. The new board today took up with Thomas Royden of the British mission the subject of reduced After the meeting toocean rates. day it was made clear that the shipping board will enter no agreement with the allies which might take from the United States control of all tonnage

An understanding as to rates probably will be reached within a few days and will be put into effect as soon as the shipping board requisitions American ships now on the seas.

Hoover Outlines Food Legislation

WASHINGTON, Aug. 10 .- Herbert Hoover's statement outlining the government's purposes in administering the food legislation follows:

"The hopes of the food administration are three fold. First, so to guide the trade in the fundamental food commodities as to eliminate vicious speculation, extortion and wasteful practices and to stabilize prices in the essential staples. Second, to guard our exports so that we retain sufficient supplies for our own people and to co-operate with the allies to prevent inflation of prices. Third, that we stimulate the saving of our food in order that we may increase exports to our allies to a point which will enable them properly to provision their armies and to feed their peoples during the coming winter.

"The food administration is called into being to stabilize conditions and to defend honest enterprise against illegitimate competition. It has been devised to correct the abuses that have crept into trade by reason of the world disturbance.

The American business men, I am convinced, realize their own patriotic obligation and will co-operate in meeting the national emergency. I don't believe that drastic forces need be applied to maintain economic distribution and sane use of supplies by the great majority of American people, but if there are men or organizations scheming to increase the trials of this country, we shall not hesitate to apply to the full the drastic, coercive powers that congress has conferred upon us in this instrument.

'In enforcing the measures of this act it is not our intention to proceed with a host of punitive measures but rather by co-ordination with the various trades to make effective such constructive regulations as will render gambling, extortion and other wasteful practices, impossible and will stabilize prices. We propose to proceed as rapidly as possible with constructive regulations in various commodities and to announce within the next few days the method of wheat and flour control.

'The deep obligation is upon us to feed the armies and the people's associated with us in this struggle. Always dependent upon import from other countries for a substantial part of their food needs, our western European allies because of the destruction of shipping by submarine and the isolation from the normal markets by belligerent lines are forced to a large degree upon our markets.

Therefore, whereas we exported before the war but 80.000,000 bushels of wheat per annum, this year we must find for them 225,000,000 bushels and this in the face of a short crop. Our best will but partly meet their needs for even then they must reduce their bread consumption 25 percent and it will be war bread they must eat-war bread, of which a large portion consists of other

'Already the greater call for meat and animal products, coupled with the inadequate world supply have compelled our allies to kill upwards of 33,000,000 head of their stock animals. This is burning the candle at both ends. Therefore, not only must we increase their supplies of meat and dairy products but must prepare as war goes on to meet an even greater demand for these necessary

"Because of the shortage of shipping only the most concentrated of foods, wheat, grain, beef, pork and dairy products and sugar can be sent across the seas. Fortunately, we have for our own use a superabundance of foodstuffs of other kinds-the perishables, fish, corn and other cereals-and surely our first manifest duty is to substitute these for those other products which are of greater use to our fellow fighters.

"Our second duty is to eliminate wastes to the last degree. Seventy percent of our people are well known to be as thrifty and careful as any in the world. They can, however, substitute foods as above. It is not too much to ask the other thirty percent by simpler living to reduce

their consumption. "Every ounce of waste is a contribution toward starvation. Our allies have reduced consumption by the most drastic measures but it is impossible to reduce consumption to those in war work.

"Therefore the incidence of this drastic reduction among our allies falls upon old people, women and children and any shortage in the supplies we may send them will fall upon this class and this class only.

"This war is a struggle to assure the dominance of Democracy. Every flag that flies against the central powers is by proxy the American flag. Every man in the ranks of the allies, every woman and child in Europe sacrificing in the maintenance of these men are fighting in our defense.

"We have in our abundance and in our waste, an ample supply to carry them and ourselves over this next winter without suffering. This is a service in which every man, woman and child in this country may enter. We shall invite all classes and all trades to sign a volunteer pledge to co-operate with us.

"There is no royal road to food conservation. It can be achieved only thru sincere and earnest daily co-operation in the twenty million kitchens of the United States.

"This co-operation and service I ask of all in full confidence that America will render more for flag and freedom than king ridden people surrender at compulsion."

INTRODUCE INSURANCE **MEASURE IN CONGRESS**

Seeks Authority To Insure the Armed Forces of the Nation

Proposed Legislation Would Provide Insurance at a Minimum Cost Family Allowances to Dependents British Drive Eastward and Indemnitication for Disaoili-

Washington, Aug. 10-Authority to make effective the government's program of insuring the armed forces of the nation was sought of con gress today in bills introduced in both houses by Senator Simmons and Representative Alexander

The proposed legislation was framed to follow plans already announced in general outline and would provide insurance, at minimum cost, for American soldiers, sailors and marines, the insured men paying the premiums; family allowances to dependents of men in the nation's military or naval service; indemnification for disabilities and the reeducation and rehabilitation, at government expense, of injured men. Must Allot Money for Dependents

A fetaure, not previously an nounced, would make it compulsory for officers and men to allot a minimum of \$15 a month out of their pay to dependent wives and gains in the line of Crown Prince children. The success the government has had in enrolling for draft purposes the names of commercial travelers ment reresentatives investigate food away from home has given new eviconditions to find out why retail dence that an absentee voters' bill prices of meat are so high. All that is practicable. For several years efforts have been made to secure an market reports. Hogs in Chicago Illinois law which would make it sold yesterday at 17c a lb. Two or possible for traveling men to vote without being compelled to return to their home precincts. Some other states have a law of this kkind and there is justice and reason in it. Every citizen is entitled to vote and so long as the purity of the ballot box is not violated it should be made easy for citizens to exercise their franchise rights on election day. In the days of the Civil war soldiers vote by mail. The draft law experience has proven how correctly registration can be done thru the mails and altogether the supporters of a traveling man's election law have a good case.

WAR REVENUE.

The food and fuel bill out of the come before that body. Other of the details of America's enormous unlogic in his suggestion that the tax proposed is not an excess profits tax but a war profits tax. All the expense from this war will not and should not be borne by this generation but there is no good reason why the corporations which are profiting so enormously from war made business should not pay a large portion portion of the expense.

There is more justice from the people's standpoint in the senate's plan of war profit taxes than in the plan approved by the house, which made thes taxes much smaller.

HOSPITAL SCHOOL AT TRAINING STATION

A Thousand Students Now Receiving Instruction in Care of Sick Wounded-Comparatively a New Thing in American Navy.

Great Lakes, Ill. Aug. 10 .- Greatest of all its kind in the world is the Great Lakes Naval Training hospital school. Here 1,000 students is also studied are learning one of the most important duties of modern warfare, that of caring for the sick and wounded.

In war, before medical science tock its place in the field as an important a part as any fighting unit, more deaths resulted from disease and infection of wounds than from the wounds themselves. Millions of lives were thus sacrificed.

Intensive Training and Study The "Hosapps" as the hospital apprentices are known here, are the at the station. On account of the sary for a man to learn the course which fits him for his work in the for duty on the ships every month. short training period, only those with good basic educations are accepted for enrollment in the school.

Probably half of the men are from colleges and universities and many are graduate physicians and registered pharmacists. The others are either high school graduates or those who have finished the greater part of their academic courses with

Schooling of the men begins in the detention camp where all recruits arriving at the station are held for three weeks apart from develop a comunicable disease. First aid and the rudiments of seamanship, which every enlisted man must know, are taught here Once having passed through the detention period study begins in earnest. In the three months preliminary training the jackie learns how to compound simple prescriptions, to feed and nurse the sick and wounded, further steps them. in first aid, and chemistry. It is said that in the three months course

ON WAR TAX MEASURE

Senator Simmons Gives Purpose in Revising Bill

States Measure Proposes to Raise Larger Proportion of the War Revenues By Direct Taxation and Less By Bonds, Distributing War

Washington, Aug. 10 .- In opening senate debate on the \$2,006,970,000 war tax bill today, Senator Simmons, chairman of the finance committee revising the house bill was to raise sufficient federal revenue for extra war expenses without injustice to rich or poor, individual or corporation and without injuring sources from which the new and future taxes must come.

To Distribute War Burden. The bill, said Senator Simmons, proposes to raise a larger proportion of war revenues by direct taxation and less by bonds, distributing the war burden between the present and future generations. He pointed out that nearly \$1,400,000,000 of the new war taxes are to be obtained from incomes and war profits alone with over \$200,000,000, more from intoxicants.

"Before the war," continued Senator Simmons, "our total expenditures were between \$700,000,000 and | four times greater than the amount \$800,000,000 exclusive of postal costs. It is evident that the expen- will receive from the tax." ditures during this fiscal year will reach something like ten billion dol- would raise the same revenues as lars. These conditions suggest in- the house rates without burdening comes and war profits as the chief either producers or consumers. FIGHT SKINNER'S FOR YOUR LIFE **Duty Demands** MACARONI

Fight-fight day in and day out to prevent being overtaken by ills and

But fight intelligently. Don't fight

sons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind-it is the invigorating tonic of the times -powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tire-

With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature, meets every essential demand of thechuman organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferrin means nature's own way of bringing color to the checks, strength to the body and keepings the vigor and buoyancy of youth. The powder and paint way of effecting beauty is not needed by hypoferrin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the checks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence that you confront the world on an equal footing with anyone.

Hypoferrin may be had at your druggist's or direct from us for \$1.00 per package. It is well worth the price. The Sentanel Remedies Co., Cincinnati, Ohio.

COMMITTEE EXPLAINS BIRTH RECORD PLANS

Various Organizations Unite to Impress Importance of Registration
Names Recorded in 1916 in County Precincts are Given.

For some time a committee of Morgan county women has been working in connection with the U.S. department of labor and several other organizations in a laudable effort to bring to pass a more complete registration of births. The department of labor thru the child welfare bureau has been issuing a series of letters laying emphasis upon the importance of this work. The county during the year 1916. Herewith is given a statement from the committee showing the purpose of the two municipalities and officials this educational campaign and also outside of Jacksonville The Jacksonville list will be published in Sunday's Journal The committee is well aware that not all babies have been listed but the names given are consider it. Until this further con- all that appear on the records mentioned

to make a visit of several weeks.

PLANTS ONE POTATO RAISES ONE BUSHEL.

G. W. Dunseth, one of our prominent farmers, who each year shows the way to other Illinois State Fair exhibitors of farm and garden products, has proved again that he is an expert by producing over a bushel of potatoes from one potato.

Last fall when Mr. Dunseth was at his North Dakota farm he picked out a potato for experimental planting. The potato weighed two and one half pounds and was thought to be a choice specimen for planting purposes. He brought it home, planted it this spring and now has on exhibition at D. B. Hart's grocery, a pile of potatoes weighing sixty-one pounds raised from this potato alone.

The potato which proved such a prolific bearer had 32 prongs or knobs, each knob having one eye. He planted 32 hills or one knob, bearing one eye, to the hill. Mr. Dunseth left yesterday for another trip to Fargo, and Waverly people are wondering if he can find any other monarch of vegetable world to excel the performance of this wonderful potato.-Waverly Journal.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unlees the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflammed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Cir-

A DOWNWARD SWING

Flattening out of Distillery Demand Causes Drop-Prohibition Clause in Food Control Bill Has Immediate Full Enect

Chicago, Aug. 16.—Flattening out of distillery demand for corn accompanied the signing of the food control bill today by President Wilson and gave a downward swing to the corn market. The prohibition clause in the bill was allowed to have immediate full effect and prices closed nervous. prices closed nervous, cash quotations demoralized and futures 1½c to 1½c net lower with December \$1.15% to \$1.15½ and May \$1.12½ to \$1.12½. Wheat finished 4c down at \$2.18 September and oats off \$\%a\!/2c to \Varsetarrow{a}\!/2c to \Varsetarrow{

360½c to Va3c. Provisions scored an advance of 2½ to 30c.

Breaks of 8c to 11c a bushel took place in the spot corn transactions as compared with yesterday, there was free selling of future deliveries and offerings from rural sources appeared to be on the increase. Under such circumstances weakness intensified during the late dealings.

A declining tendency in the weak mar-ket was noticeable from the outset and especially after attention had been gn-rally directed to the fact that the mini-mum price of \$2.00 in the food control bill would go into effect July 1, 1918. Oats went heavily downgrade in sym-pathy with corn Despite the drop in corn values provisions showed much strength. The main reason was an advance of 25c in the hog market lifting choice hogs to \$17.00 a hundred weight, the topmost price ever known.

REPRESSION MORE SHAR AT DEFINED

New York, Aug. 10.—Dun's Review tomorrow will say:

"The repressing effect on existing uncertainties has become more sharply defined, and in some of its most important branches business is characterized by rather more than the usual mid-summer halting. With the continued doubts about prices and with the widening scope of the export embargo, the lull natural at this period of, the year is intensified. Governmental purchases take precedence over all other requirements. Weekly bank clearings \$4.622,077,392." New York, Aug. 10.-Dun's Review to-

DIVERSE DEVELOPMENTS LOWER STOCK PRICES

War Shares Continue Under Intermittent Pressure-Rails Manifest a Sudden Reversal from Their Recent Firmness.

New York, Aug. 10.—Diverse developments bearing upon quoted values doubtless accounted for the lower trend of today's resisted operations in the stock market. A decrease of over 500,000 tons in unfilled orders of the United States Steel corporation for July, a new low record for Russian remittances and the expansion of labor troubles were among the principal drawbacks.

On the other hand call money relaxed from yesterday's opening rate of four per cent and several of the leading industrial and producing companies submitted favorable financial reports. Among the more noteworthy of these were the annual statement of the Max-Among the more noteworthy of these were the annual statement of the Maxwell Motor Co. and the quarterly return of the Utah Copper Co. War shares continued under intermittent pressure. United States Steel reacted two points to 122% with a substantial recovery; Bethlehem Steel, new stock, 2¼. General Motors 4% and a few high priced specialties lost 1 to 2 points.

Rails manifested a sudden reversal from their recent firmness, dividend-paying issues breaking I to 3 points on comparatively small offerings. Lowest prices were made in the final hour with fractional recoveries at the close. Total sales amounted to 470,000 shares.

EXEMPTION RULINGS TIGHTENING UP

War Department Instructs Local Board to Use Great Care in Passing On Statements of Men Reporting Dependent Families.

That the government is each day tightening up on interpretation of exemption from war service on the ground of dependent relatives is apparent. Provost Marshal General Crowder has issued new instructions along this line several times this week and the following, received last night by Miller Weir, president Mrs. Williamson is the daughter of the local board, makes this fact of Morton and Anna Bridgman and still clearer. Evidently the local board must look into the facts sur-The family moved to this rounding each case and learn whethpart of Illinois in 1851 and she was er or not the wife and children of the married to Mr. Bridgman March 1, claimant are really dependent upon 1855 Rev. The repression by local boards of unmeritorious claims this result is inevitable since any such percentage of exemptions as reports of claims indicate would nullify the law and prevent the raising of an army. It is thus apparent that the filing of these improper claims will react directly and injuriously on persons whom the president's regulations were designed to protect and that the welfare of persons who have filed bona fide claims under the present generous clauses of the regulations, is seriously imperilled by persons who have filed claims without merit, and that the only protection of persons whose cases are within the meaning of the present rules, lies in the power of local board to refuse exemption in every doubtful case. It is true that cases of discharge on the ground of dependency are appealed to the district board, but this clause is only inserted to secure uniformity of action. District boards are to examine these cases to discover departures from the law, regulations, and rulings; and they will not and cannot open every case on its merits. It is in the local boards alone, therefore, that the solution of the difficulty and the pro-

WAVERLY COUNCIL VOTES MR. TOMLINSON HOME OUT BOWLING ALLEY

Refuses to Renew the License of Mark Inman to Conduct Ten Pinnet Game.

Waverly Journal: The bowling alley question was settled in Waverly probably for good when the city piring several weeks ago. The question has been up before the council the past three sessions but definite action was not taken until the last

council meeting. Many people have objected vigorously to the operation of the bowling alley and have urged the council to refuse to grant another license. On the other hand a petition was presented to the council as was the case when the first license was issued asking that the license be granted. The written petition was the subject of much merriment at the council meeting, some of the aldermen stating that a considerable number of those who signed the petition asked personally that the petition be refused. Alderman Dunseth stated that he was in favor of granting the request of the petitioners and so voted when men Campbell, Mader and Shutt voting no, with Aldermen Allyn and Ro- the government

MODELS FOR SOLDIERS' MONUMENT DISPLAYED

Inspect Models at Academy Hall Friday-Findings to be Submitted to Monument Commission and City Council for Final Selection.

Twelve models for the proposed ors of Morgan county were displayed K. Pond of Chicago and Senator bers of the commission, made up this committee and after careful inspection awarded their sealed findings with reference to models of first second and third merit. These findings will be submitted to the monument commission and the city council for final selection. Those who saw the models declar; that they are all fine pieces of work and show the ability of the artists. There are few in the number that are not suited to such a site as that which will be used for the Morgan county monument. Members of the commission are all men of experience and special education along art lines and the monument association feels very fortunate in having secured their services. The committee receives merely expense money for their work

The monument association will meet as soon as possible to examine the decision of the members of the commission and in conjunction with the city council will decide on the design and immediately go to work getting ready for the execution of the contract.

It may be safely said that the people of Jacksonville and Morgan county will have no cause to be ashamed of the structure that will be erected to the memory of the country's defenders.
